

Classroom Speech Analysis

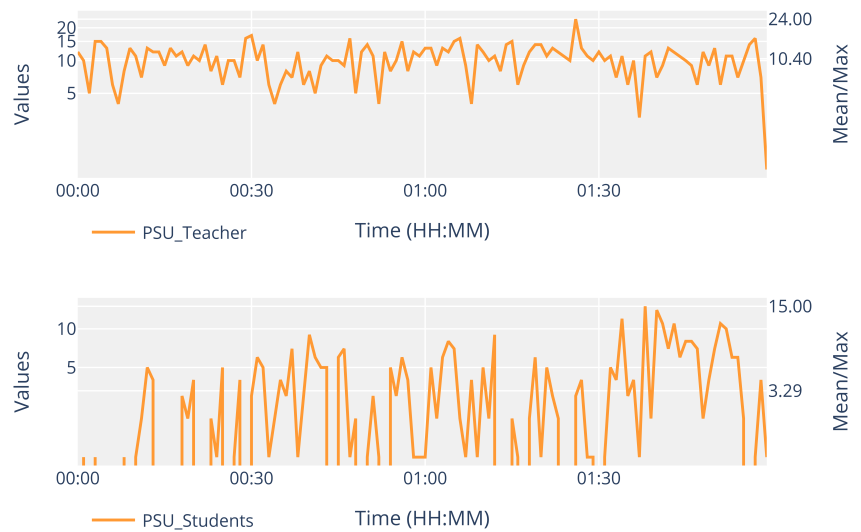

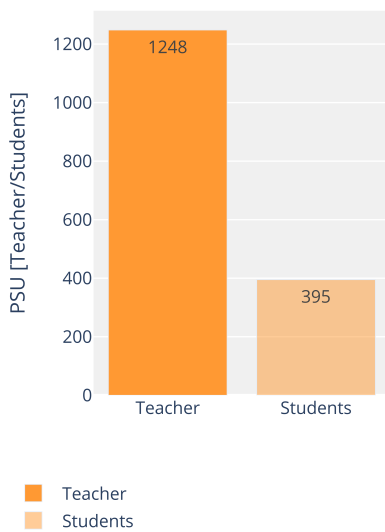

PSR: Participation's ratio for each role.

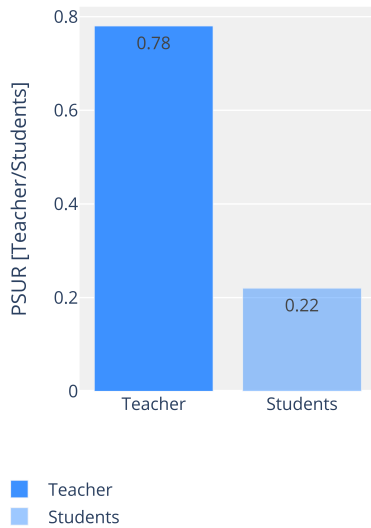

APSUD: Utterances's average duration for each role in seconds.

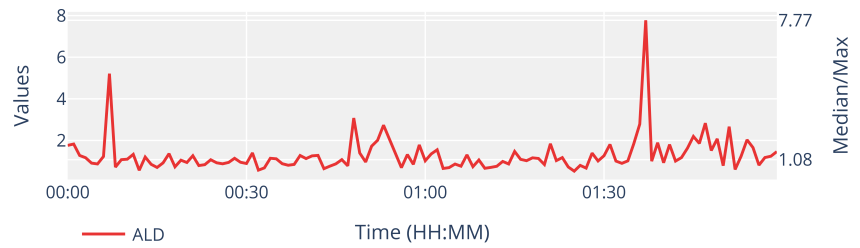

PSU: Number of utterances in the current recording segment.

PSUR: Utterances's ratio for each role.

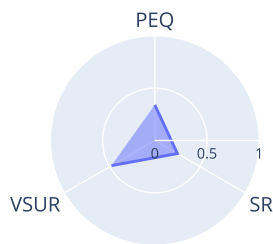

ALD: 1.08, Silences's median duration in seconds.

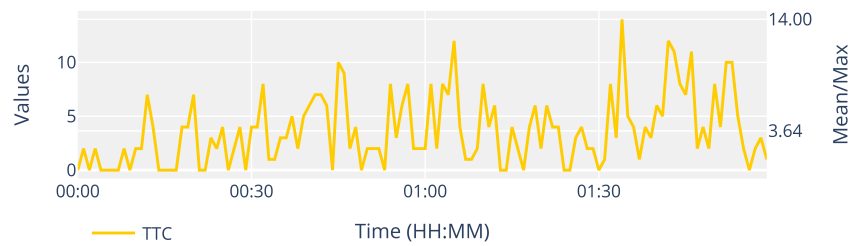

VSUR: The ratio of very short speech utterances (less than 2 seconds) over the total.

PEQ: An indicator that assesses the balance of participation among different roles. Values close to 1 indicate an equal distribution of participation.

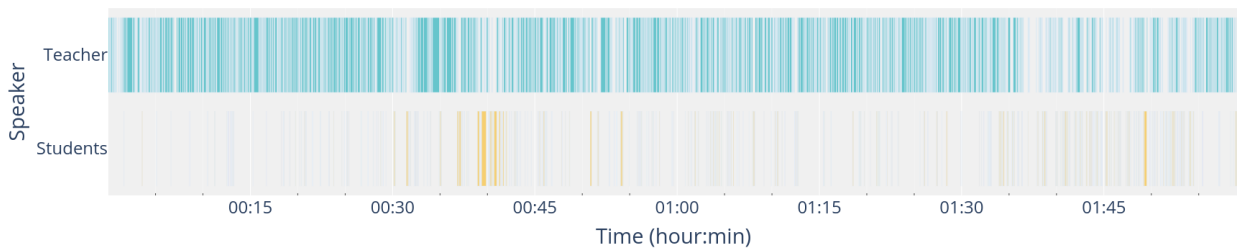

SR: The ratio of participation of each role during the recording segment.

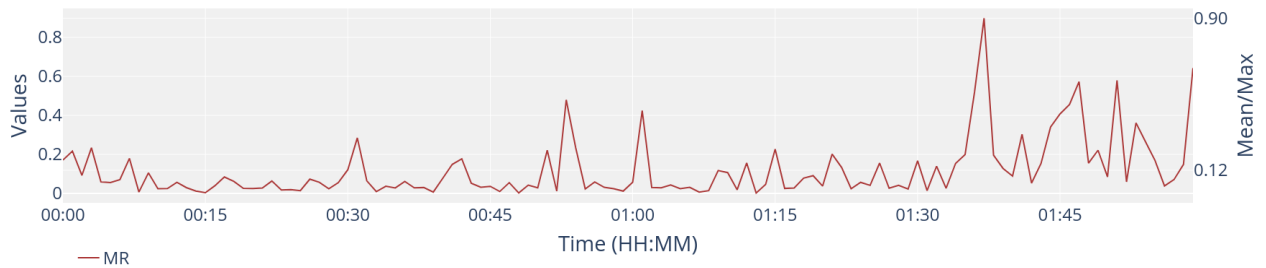

TTC: 437, Number of turns changes.

Timeline of the different utterances of the speakers

MR: 0.12, Mumble's average ratio.

Student Interventions

Metric	Value
Number of distinct students	5
Number of significant interventions	56

Speaker	Start Time	Duration (s)
Student_00	0:30:06	4.36
Student_02	0:31:26	17.00
Student_04	0:36:48	4.40
Student_04	0:36:55	14.70
